

I have just become aware of the proposal to expand Low Power FM and how this might impact me, the listener of FM. I listen to my favorite stations every day and they play a very important part in my life and the life of my family. I listen to 88.9 K-Love most of all. I have young children and this is a family friendly station. I don't have to worry about all the trashy talk and lyrics and it is uplifting to us all. This station makes local announcements that are of interest to us and others in my community. It would be terrible if we lost the ability to listen to this station because it might be displaced by a LPFM broadcaster. There is no telling what they would play. It is very difficult to find decent content on the radio unless you can find it on a Christian station. It concerns me very much that this decision that you will make regarding this issue, will impact people who have no idea about the issue at all. Please consider us, the listeners. Do not allow our programming to be displaced. Thank you for your time.
